

Pressrelease Tribute:

The man behind the Tribute project is drummer, composer, producer Carsten Lindholm, born 1969 in the small town Kerteminde on the island Fünen

His music is based on a tribute to people (living and dead) who have made a deep impact on his life.

The filmic music is a mixture of: jazz, drum `n` bass, ambient soundscapes, Indian tabla beats based on a simple nordic melody. His musical mentors are:

Sting, Erik Truffaz, Nils Petter Molvaer, Eivind Aarset, John Coltrane, Bill Laswell, Jojo Mayer

Tribute line up consists of the strongest expressive musicians in the industry today and was recorded in 5 different sessions in Oslo and Copenhagen:

Eivind Aarset, Joakim Frøystein Hans Oxmond (guitar)

Rene Damsbak, Tav Klitgaard (trumpet and sounddesign), Anders T Andersen (sax)

Audun Erlien, Kristor Brødsgaard (bass) Jens Minke (sound design) and Vj Varm (visuals)

We live in a society that has lots of fragments and impressions, where it is important to create space for contemplation and reflection.

Tribute is an attempt to create unity in a fragmented world and create presence for the audience, so they may be able to forget everyday life for a while.

His webpage contains 4 Songs from Tribute, and 2 Videos by Vj Varm.
